SUMMARY

Focused Computer Engineering student currently seeking a job platform where I can utilize my skills and enhance learning in field works. With creative thinking, technical and writing skills, I can be relied upon to help your company achieve its goals

PROJECTS

Quizpicable Me(Mobile quiz Game)

📅 07/2020 - 08/2020

🔗 <https://github.com/Alefiya-J/Quiz-App>

A responsive quiz app with various genres such as Entertainment,GK, Technology,etc made using Flutter that runs on Android and iOS both.

Covid-19 Tracker

📅 09/2020 - 10/2020

🔗 <https://github.com/Alefiya-J/Covid19-Tracker>

A responsive country-wise Covid-19 Tracker App made using Flutter using disease.sh API which shows daily and total recovered cases,active cases and deaths, along with a graphical representation of them. It works on Android and iOS both

Food Catalogue

📅 02/2021 - 03/2021

🔗 <https://github.com/Alefiya-J/FoodCatalogue>

In this project, I created a food catalogue using HTML, CSS, React using Edmam API. The application allows one to view all the meals, search for a meal basing on the available categories, and view all the ingredients used to prepare the meal.

Online Bakery

📅 03/2021 - 04/2021

🔗 <https://github.com/Alefiya-J/OnlineBakery>

An online responsive website for selling home made chocolates and bakery items made using HTML, CSS, Javascript and bootstrap. It also has order and contact forms.
